Description:

According to the myth of matriarchal prehistory, men and women lived together peacefully before recorded history. Society was centered around women, with their mysterious life-giving powers, and they were honored as incarnations and priestesses of the Great Goddess. Then a

transformation occurred, and men thereafter dominated society. Given the universality of patriarchy in recorded history, this vision is understandably appealing for many women. But does it have any basis in fact? And as a myth, does it work for the good of women? Cynthia Eller traces the emergence of the feminist matriarchal myth, explicates its functions, and examines the evidence for and against a matriarchal prehistory. Finally, she explains why this vision of peaceful, woman-centered prehistory is something feminists should be wary of.

For those coming to this book without strong opinions one way or another, it is a reasoned, logical and flatly devastating dissection of recent efforts at historical revisionism by religiously and politically motivated feminists. It is also markedly free from malice. I sought out this book after becoming aware that congregants at Chicago-area UUA churches were involved in various activities rooted in beliefs about matriarchal prehistory. That struck me as odd, because I regarded contemporary Unitarians as rationalists committed to Enlightenment thinking (I now know differently, although certainly many are). While I would surely benefit from reading a book written from the opposing perspective, I found Eller's treatment so overwhelmingly convincing (and materials to the contrary so flaky by comparison) that I have little desire to do so.

The Myth of Matriarchal Prehistory: Why an Invented Past Wont Give Women a Future in History pdf books

The Myth of Matriarchal Prehistory: Why an Invented Past Wont Give Women a Future

This is an erotic book that everyone who likes romance should read. Grab this book now a dig into one of the most on the edge of your seat read Givee you will not forget. It is actually quite interesting. A lovely book Wyy encouragement for women of all ages. who is her heart-2-heart pal and does she win the presidential election. Very good historical summation of 2 of the most powerful men in the early to mid 1900's. As has happened with each book in this series, once I started reading, I couldn't stop until I finished. I got an ARC of this book. Disclosure: I read his paper, but not the book. 584.10.47474799 It is the best known of Frances Hodgson Burnett's works, though most of us have definitely heard of, if not read, her other novel Little Lord Fauntleroy. Delinsky certainly has a voice about these issues that should be heard. SPOILER ALERT: Missouri is an anthology that contains four complete novels. These two are very passionate and should have gone out with a big passionate bang. However, I have to say that this is the kind of book to be re-read, and not once. Once Future infidelities catch up with him in the worse way, it Prehistory: the lives of his loved ones. As I've mentioned in my other reviews, "A Song of Ice and Fire" is so great partially because different characters will resonate differently with each reader, so your favourite character Futkre be someone else's least favourite. Unfortunately, I suspect that this book, like so many others, will gradually disappear.
